

Promoting Oncology in Massachusetts

The Massachusetts Society of Clinical Oncologists (MSCO) has a long and proud tradition of representing over 600 oncologists from over 45 practices in the state of Massachusetts. Our membership includes physicians throughout the diverse field of oncology, including medical oncologists, radiation oncologists, surgical oncologists, as well as specialists in the fields of hematology, pediatric oncology, and gynecologic oncology.

Working Together and Building Community

- Supporting oncologists and their practices for the purpose of improving cancer care and treatment for cancer patients in the state of Massachusetts
- Protecting and enhancing the clinical practice of oncology and promoting research for developing and delivering quality treatments
- Fostering relationships among oncologists across institutions and to voice oncologists' collective interests to other stakeholders in cancer care
- Promoting the latest advances and resources in research, practice, and care

For questions in regard to this event, please contact Nathan Strunk at (781) 434-7329 or email nstrunk@mms.org.

Shifting Paradigms in Primary and Metastatic Brain Tumors: Unleashing the Power of Genomics to Clinical Care

Priscilla K. Brastianos, MD

Director, CNS Metastasis Center

Departments of Medicine and Neurology
Massachusetts General Hospital/Harvard Medical School

Audesse Award Winner
Team Cork

MSCO Oncologist of the Year
Therese Mulvey, MD

The Audesse Award recognizes outstanding efforts to educate the public about cancer prevention and to enhance and protect the quality of cancer care in Massachusetts.

The MSCO Oncologist of the Year honors the achievements of an individual whose research and innovations have had a transforming and lasting impact in areas of clinical oncology, cancer research, clinical trials, and patient advocacy activities or outstanding long-term service to MSCO and to clinical oncology.

Priscilla Brastianos, MD Director, CNS Metastasis Center; Divisions of Hematology/Oncology and Neuro-Oncology; Departments of Medicine and Neurology; Massachusetts General Hospital/Harvard Medical School

8:20 p.m. Question and Answer Session Moderator: Michael Constantine, MD President, Massachusetts Society of Clinical Oncologists

8:30 p.m. Program Concludes

OBJECTIVES:

- After participating in this activity, attendees should be able to: 1. Analyze how genetic heterogeneity impacts precision medicine approaches in patients with primary and metastatic brain tumors. 2. Describe the therapeutic targets in primary and metastatic brain tumors. 3. Explain the development of multidisciplinary clinics for the management of challenging brain cancers. 4. Evaluate the design of multicenter trials in primary and metastatic brain tumors.

ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Massachusetts Medical Society and the Massachusetts Society of Clinical Oncologists. The Massachusetts Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

AMA CREDIT DESIGNATION STATEMENT

The Massachusetts Medical Society designates this live activity for a maximum of 1.00 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Team Cork Inc. was founded in 2016 by the Curtis family. The charity's founder, Chris "Corkey" Curtis, was diagnosed with colon cancer in the spring of 2015. While receiving treatment at Dana-Farber Cancer Institute, Corkey was able to persevere through the innumerable scans, surgeries, chemotherapy treatments, and appointments because of the support of family, friends, and the amazing staff at Dana-Farber. From their outstanding and selfless support, the idea of founding Team Cork was born.

Team Cork is dedicated to raising awareness, encouraging people to reach out and support cancer patients, and to raise money to support programs that benefit cancer patients. Our long-term objectives are to establish wellness programs and a network of volunteers to provide support services, free of charge, to cancer patients, and their providers, during their battle with cancer.
